

YouTube Learning Guide: Model Evaluation and Refinement

1. Train-Test Split & Linear Regression

- Linear Regression Clearly Explained - StatQuest
https://www.youtube.com/watch?v=nk2CQITm_eo
- Train-Test Split & Linear Regression in Python - Krish Naik
<https://www.youtube.com/watch?v=5dBrOS7h6Kc>

2. Cross-Validation

- Cross-Validation Explained Simply - StatQuest
<https://www.youtube.com/watch?v=6dbrR-Wymjl>
- Cross-Validation with Scikit-Learn - CodeBasics
<https://www.youtube.com/watch?v=6dbrR-Wymjl>

3. Polynomial Regression & Overfitting

- Overfitting vs Underfitting - StatQuest
<https://www.youtube.com/watch?v=EuBBz3bl-aA>
- Polynomial Regression in Python - Codebasics
<https://www.youtube.com/watch?v=2gH2sPcWgDM>

4. Ridge Regression (Regularization)

- Ridge Regression Clearly Explained - StatQuest
<https://www.youtube.com/watch?v=Q81RR3yKn30>
- Ridge & Lasso Regression in Python - Krish Naik
<https://www.youtube.com/watch?v=ngLy-X54rH0>

5. Grid Search (Hyperparameter Tuning)

- Grid Search CV Explained - Krish Naik
https://www.youtube.com/watch?v=GoI_qOgRqfA
- Grid Search with Ridge and Lasso - Codebasics
<https://www.youtube.com/watch?v=9KRR3HkUCGs>

Bonus Playlist

- Machine Learning Full Course (Python) - Codebasics
